 Ziad Hamada

SUMMARY

I’m a creative Front-End Developer, Graphic Designer, and Surveying Engineer. I build responsive websites using HTML, CSS, and JavaScript. My background adds precision and problem-solving skills, helping me craft user-friendly, visually appealing, and technically sound digital experiences.

EDUCATION

Alexandria University, Faculty of Arts, Geomatics Department.

EXPERIENCE

Freelance Front-End Developer & Graphic Designer

- Designed and developed multiple responsive websites using HTML, CSS, and JavaScript, focusing on user experience and modern UI design.
- Created branding materials, logos, and custom UI components using Adobe Illustrator and Photoshop.
- Merged graphic designs into web interfaces, blending aesthetic visuals with functional layouts.
- Built landing pages, portfolios, and small business sites with attention to performance and accessibility.
- Collaborated with clients to deliver tailored design solutions, combining technical precision and creative flair.

PROJECTS

Freelance Front-End Developer

- Created multiple portfolio websites for business owners and university professors, tailored to showcase their work and identity professionally.
- Developed a functional calculator web application and a service showcase website with clean, responsive design.
- Utilized technologies such as HTML, CSS, JavaScript, and Bootstrap to build modern and mobile-friendly user interfaces.
- Focused on responsiveness, performance, and user experience across various devices and browsers.
